

POSability

POSability is feature-rich store system that empowers store personnel to provide a better customer experience and offers a high ROI with live Quantity On-Hand lookup features, Customer Relationship Management and integration with debit/credit and gift card systems. It can function by itself as a complete solution, or as a component in a multi-lane, multi-store retail system. Software navigation is intuitive, making it easy to use and reducing your training costs. It is a turnkey Point-of-Sale system which offers complete POS functionality and Inventory Management on a Per Store basis.

Features

- Comprehensive Point-of-Sale system
- Flexible configuration to your store's unique needs
- Multiple registers supported through both LAN & WAN technology
- Advanced real-time integration to other stores and head office
- Full-featured Customer Relationship Management including detailed purchasing history and e-mail distribution lists
- Innovative reporting and graphical analysis tools

Enhancement Modules

POSability includes all the major retailing functionality required in one package. For retailers with specialized needs, the following additional modules are available:

- Integrated Traffic Counting
- Staff Scheduling / Time Sheets
- Cashier Forced Declaration
- Electronic Journal
