

ReACT Classic

Inventory control is essential to running a profitable retail business -- we put inventory control to work to maximize profits for your business. ReACT Classic is our Head Office Inventory Management System designed specifically for chain store retailers.

ReACT Classic is a powerful database system that integrates with the Pulse Retail Systems software in your stores and head office. Its powerful reporting capabilities allow your merchandisers to analyze and effectively manage stock.

Features

- Effectively manages Purchase Orders, Stock Transfers, Receiving, and Vendor Returns
- Automated reporting alerts your staff to potential problem areas creating an efficient environment
- Optimizes your inventory management with Physical Counts and Barcoding support
- Integrates with Point-of-Sale software enabling Sales Audits and Sales Analysis
- Manage your permanent and temporary price changes by a variety of factors including size and color to increase your sales and your gross margin

Enhancement Modules

- Mail Order / Catalogue Order Entry
- Auto Replenishment
- Accounting Interface
